

Although these unsolicited call to my home have not stopped 100% they have dropped dramatically. I am a 12 hour shift worker that was being awakened daily sometimes several times a day from telemarketers wanting to sell me something I did not want. As an example they want me to buy siding to put on my NEW BRICK HOME. When you work 12 hours a day plus travel time your rest time is very valuable. When this time is disturbed by unwanted call several time a day this is not good to say the least. Anything you can do to help eliminate these "UNSOLICITED" sales call is greatly appreciated.

Please do not weaken the present DO NOT CALL Program that is being proposed. Thank-you
